A Letter from the Patron, HLA

Dear Colleagues

1. At last after a very long and anxious waiting, we are presenting this Biographical Directory of Library Professionals to the library lovers in general and library professionals in particular. This contains in all about 160 entries. Some of our life members did not attend to our repeated requests. We hope they will find their names in the register of members. We regret lapses and omissions, if any, due to time gaps. Before I conclude, my formal massage I would like to share information of Library Act in Haryana.

2. The State Library Authority was constituted by the Governor and duly notified on 14.1.1993. The first meeting of the Authority was held on 12.2.93 at 10.30 A.M under the Chairmanship of Honourable Education Minister Haryana Smt. Shanti Rathee in her office in Haryana Secretariat, Chandigarh. But for routine work, the major decisions were directed towards (1) Approval of the upgradation of the Sub-divisional libraries functioning at Yamuna Nagar, Panipat, Kaithal and Rewari to the status of District Libraries (2) Transfer of book grant of Rs. 2 lacs from the Local-Self Govt., Department to the Department of Libraries, as per Section 15 of the Act, the books through this grant were to be purchased by City and Town Library Committees (3) Creation of cards for public library employees (4) Constitution of the State Book Selection Committee.

3. The second meeting of the Library Authority could be held during May, 1994. In this meeting four posts of the Districts Librarians were created and suggestions were made to have children section attached to every district library to attract cent per cent grants to these section from Raja Ram Mohan Roy Library Foundation, Calcutta. It was also exhorted that work of the Constitution of Library Authorities at all level be completed in pursuance of the act at the earliest. The rural libraries opened with the active coorpration of the Haryana State Rural Education Promotion Society were also allowed and sanctioned Book Grants through the Authorities. It was clearly brought to the notice of the Authorities that till an independent Directorate of Public Libraries is not created, the library movement would remain thwarted in the State. However, the Libraries were proposed to be placed under a Deputy Director Libraries till independent status is accorded to the Directorate of Libraries as per Act.
4. During 1995, the State Librarian has been promoted and made Deputy Director (Libraries) a step towards institution of an independent Directorate of Libraries. However, it has been observed that a lot of work was yet to be done.

5. The Association added three academic activities during this period with the organisation of seminars on (a) Computers and Libraries (b) Libraries for children and (c) Rural Public Library Movement in Haryana. The Association could also be successful in persuading the Department of Library and Information Science, Kurukshetra University, Kurukshetra to start M.L.I.Sc., B.L.I.Sc. and Dip.Lib.Sc. courses through Distance Education modes.

6. The Association participated actively in the framing of proposals by I.L.A for new payscales for the consideration of 5th Pay Commission, regarding librarians in the country. The main thrust in the proposals was directed towards removal of existing anomalies, upgradation, inbuilt/career advancement schemes and equation with the similar cardes in the Central Government. Similar memoranda has been sent to U.G.C., regarding professional staff, functioning, in College and University libraries.

7. The State Pay Commission was approached for the school libraries, Polytechnics and semi-professionals working in different libraries of the State, the basic anomalies being pointed out was the gulf inbetween the scales of College Librarians and Assistant Librarians working in colleges, polytechnics, public and special libraries systems, etc., in State of Haryana.

The struggle is on and mile stones are many. Let us be pledged to the welfare of the profession. With warm acknowledgement for the cooperation, the Association has recieved from professional colleagues in all the progressive professional activities of the Haryana Library Association.

Long Live our profession!
Long Live our Association!

Another healthy tradition established by Dr. Sharma is the Registration of the professionals of the State who are life-members of the Association, honouring of the Seniors during Annual/Mini Seminars that can be considered as a revolution in the profession. The adoption of Code of Ethics as also designing and adoption of Professional Oath are the other contributions of his time.

May God Almighty shower the Association with Choicest Blessings.

* I shall abstain from all intentional wrong-doings and abuses leading to professional infame;

"Your right is to work only,  
But never to the fruit thereof  
Let not the fruit of action be your object,  
Nor let your attachment to be inaction"

—Bhagvadgita
Preamble: We, the librarians and information professionals of India. Convinced of the fact that a library is meant to fulfil certain definite educational, cultural and socio-economic objectives of the contemporary society; Realising that we have a clearly defined effective role to play in fulfilment of these objectives; Aware of the fact that this role, modified from time to time with the introduction of new innovations in information techniques and the overall development of our technological society, will continue in the foreseeable future; Believing that in our democratic society, following a socialistic pattern, every citizen has the right to intellectual freedom and the freedom of access to undistorted, unbiased information, irrespective of his educational, cultural level, political affiliation, caste, creed, religion, age or sex and that we are committed to foster readers' right to read as they please, only except such materials which are covered by censorship regulations imposed by law; Accepting our special responsibility of selecting reading materials and guiding lay public in their use of the library's resources, to enlarge their mental horizon and elevate their taste; Considering that we are not simply a conglomeration of certain related groups of technicians and managers, but a homogeneous group of educators, equipped with general techniques and technology of library management, continuously updated to keep pace with the changing needs of our progressive society; Conscious fully of the fact that membership in our profession carries with it special obligations to maintain the highest level of personal integrity and competencies, and; Determined to create a healthy profession tradition for the future; create and give unto ourselves the following code of professional ethics: The Code 1. Library and information profession is a service profession. Library and information professionals should gather informations, organise into easily accessible collections, provide mechanisms that help productive utilisation of the same by all the eligible clientele.
2. Library and information professionals must be governed by the democratic principle of giving every user his/her opportunity to access to information resources and make special efforts to keep their interest growing towards further developments.

3. Library and information professionals must familiarise themselves with all available information sources that are of interest to their clientele either on demand or in anticipation. They may be in the forms of book, technical papers, and other non-print records and even sometimes specialist in any field of knowledge. Gathering, organising and transmitting information to the appropriate targets of use is an essential credo of librarians and information personnel, efficiency and effectiveness in finding targets of use for every information available is the main focus of our profession.

4. Library and information professionals must keep service orientation in their professional work. Personal philosophies and attitudes should not interfere with those of the institutional organisations.

5. Library and information professional should avoid unlawful and unethical pecuniary interests and must serve their clientele on an equitable basis.

6. Library and informational professions should keep timeliness as a prime factor in serving information to user. A delayed response brings discredit to the service and ultimately may not be useful.

7. Library and information professionals should aim at the development of their own professional organisations and take pride in the ethos, activities and service. They should encourage younger generation of professionals with their own examplary service.

8. Library and information professionals should cultivate their field of knowledge in a professional way. They should contribute to the field by research, teaching and dissemination through literature.
